This page contains all the information on this sheet, but I will also scan my class notes and post the PDF files there. They will be hand-written and may possibly contain mistakes, but may be useful as study material.

Quizzes for Math 1500, Section A06 (during Lab classes); tentative schedule:

Quiz #1: January 23
Quiz #2: February 6
Quiz #3: February 27
Quiz #4: March 13
Quiz #5: March 27

The course outline and other information related to this course are in a separate handout.

Please attend class, I want as many of you as possible to pass this course. If lecture material makes little sense as you see it for the first time on the board, you are not alone and this does not mean the lectures are useless. Taking neat notes and remembering a few small facts from class are an incredible help when trying to digest the material later on.
